# Using Wiki Tools

Comm 181F

Wiki Tools

If you are signed-in, the you should see your email in the top right corner.

The best place to find out how to work the wiki is in the help menu.

Select "Editor" for an explanation of the WYSIWYG features.

Wiki Tools

To upload items to the wiki, go into edit mode. This window will appear.

Select "Images and Files."

Then select upload files and proceed to browse top select.

Any files will go into the BIG file with wiki materials, so you will have to look for them.

Run your cursor over to get a "thumb nail" image.

Insert links
Insert links to other pages or uploaded files.

Wiki Tools

To get a graphic onto the wiki page from the wikis "Images and Files," you can simply "drag and drop."
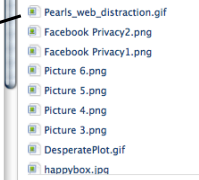

You can also drag and drop from your own desk top.
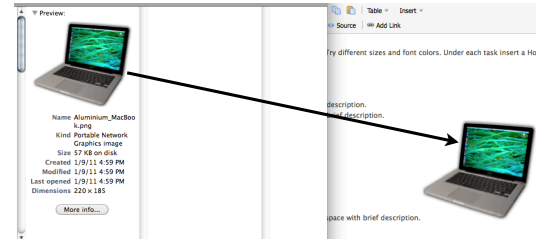

Wiki Tools

To embed video from YouTube it is best to select <> HTML/Javascript which is less "picky."

This window will appear and you can copy and paste the embedding code into it.

This widow will appear, hit "insert plug-in."

The video window will appear wherever your cursor was on the page.

Table   **Insert** ▾
